

# Alcon in Vienna

**17 -19 September, 2011**

**Save the date for these symposia  
during the XXIX Congress of the  
ESCRS in Vienna.**

**Alcon<sup>®</sup>**

# Saturday, 17 September

## Live Surgery: Presenting Advancing Technologies for Advancing Techniques

*A EuroTimes Satellite Programme*

**Main Hall A ~ Messe Wien Congress Center**

**18:00-18:30 Registration & Refreshments**

**18:30-21:00 Live Surgery Broadcast from  
Simmelweis University**

Learn from world-renowned surgeons as they manage challenging cases using the latest advancements in Alcon's cataract, refractive, and glaucoma surgery technologies.

Featured technologies will include:

- LenSx® Laser
- INFINITI® Vision System with OZil® Intelligent Phaco (IP) and ULTRACHOPPER™ Tip
- EX-PRESS® Glaucoma Filtration Device
- AcrySof® CACHET™ Phakic Lens
- Advanced Technology IOLs including
  - AcrySof® IQ ReSTOR® + 3.0 D
  - AcrySof® IQ ReSTOR® Multifocal Toric
  - AcrySof® IQ Toric

## Surgical Faculty

**Pr. Zoltán Zsolt Nagy**  
Host Surgeon  
Hungary

**Dr. Ike Ahmed**  
Canada

**Dr. Francesco Carones**  
Italy

**Dr. Philippe Crozafon**  
France

**Dr. Khiun Tjia**  
Netherlands

## Faculty Panel

**Dr. Donald N. Serafino**  
Moderator  
USA

**Dr. Edward J. Holland**  
USA

**Prof. Dr. Michael C. Knorz**  
Germany

**Dr. Ozana Moraru**  
Romania

**Dr. Rudy M.M.A. Nuijts**  
Netherlands

**Dr. Robert H. Osher**  
USA

# Sunday, 18 September

## MGD: The Most Common Ocular Surface Disease and Its Surgical Implications

*A EuroTimes Satellite Programme*

**Lehar 1 Room ~ Messe Wien Congress Center**

**13:00-14:00 (lunch boxes will be provided)**

**Faculty Moderator:** Dr. James McCulley, *USA*

Dr. José M. Benitez del Castillo, *Spain*

Dr. Gerd Geerling, *Germany*

Dr. Elizabeth Messmer, *Germany*

Join experts in the field as they discuss meibomian gland disease, which is currently considered the most common cause of dry eye, and its effect on surgical outcomes and overall patient satisfaction.

# Sunday, 18 September

## Innovations in Cataract Surgery

*A EuroTimes Satellite Programme*

**Strauss 1 Room ~ Messe Wien Congress Center**

**13:00-14:00 (lunch boxes will be provided)**

**Faculty Moderator:** Mr. David Allen, *United Kingdom*

Dr. Rosa Braga-Mele, *Canada*

Prof. Dr. Michael C. Knorz, *Germany*

Dr. Abhay Vasavada, *India*

Discover what's new in cataract surgery featuring laser refractive cataract surgery using the LenSx® laser along with the latest advancements in the INFINITI® Vision System, OZil® Intelligent Phaco (IP) and the Intrepid® Micro-Coaxial System.

# Sunday, 18 September

## Innovations in Advanced Technology IOLs and Laser Systems

*A EuroTimes Satellite Programme*

### Imperial Palace\*

18:15-19:00 – Registration

19:00-20:00 – Symposium

20:00-21:00 – Reception

**Faculty Moderator:** Prof. Dr. Theo Seiler, *Switzerland*

**Faculty Moderator:** Prof. Dr. Michael C. Knorz, *Germany*

Dr. Arthur Cummings, *Ireland*

Dr. Bonnie Henderson, *USA*

Prof. Zoltán Nagy, *Hungary*

Dr. Rohit Shetty, *India*

*\*Ground transportation from the Messe Wien Congress Center to the Imperial Palace will be provided. Visit the Alcon booth (B410) for more details.*

Learn from top industry opinion leaders as they share their experiences with the newest Alcon cataract and refractive technologies featuring the AcrySof® ReSTOR® Toric and AcrySof® IQ Toric IOLs as well as the WaveLight® Refractive Suite and LenSx® Laser systems.

---

# Monday, 19 September

## Innovations in Glaucoma Surgery: Improving Predictability in Filtration Surgery

*A EuroTimes Satellite Programme*

### Strauss 1 Room ~ Messe Wien Congress Center

13:00-14:00 (lunch boxes will be provided)

**Faculty Moderator:** Dr. Tarek Shaarawy, *Switzerland*

Dr. Elie Dahan, *Israel*

Dr. Stefano Gandolfi, *Italy*

Internationally-renowned faculty will demonstrate significant differences and the latest clinical evidence in the efficacy and safety of the EX-PRESS® Glaucoma Filtration Device over standard trabeculectomy. This one hour symposium will provide an introduction to this new technology as well as guidance around the surgical procedure and associated surgical pearls.
